## All About the ARCHER ADVOCATE PROGRAM

Alpine Academy is a small, state-sponsored public charter high school. Our mission is to ensure that students receive a quality education and obtain the necessary skills and knowledge needed to advance their lives and engage in a positive, responsible citizenry in our community and society at large. We provide our students with college and career preparatory curriculum and opportunities and pride ourselves on delivering a highly personalized learning environment.

As you can imagine, Alpine Academy operates on a very small and meticulously scrutinized budget. Some of our educational endeavors are made possible when community members and local businesses contribute goods and/or services to further the learning opportunities of our students.

## WHO CAN BECOME AN ADVOCATE?

As part of our Partners in Education Program, donors will be recognized in a tiered system. Each level of contribution is celebrated in a variety of ways including (but not limited to) sponsorship on our website and social media, commemoration on our donor wall on our campus, and mentions in school-created publications including newsletters, yearbooks, and graduation announcements, etc.

Alumni, Archer Families (past and present), Community Members and Leaders, Local Businesses and/or organizations can participate!
